

# CHLORINE GENERATOR

## FOR SWIMMING POOLS *HIGH PERFORMANCE*

The CLARIPUR Chlorine Generator has a high chlorination efficiency for swimming pools.

**CLARIPUR** uses high purity SALT (NaCl) to produce CHLORINE directly into your pool, this makes the dosing process of chlorine automated, ecological, practical, economical, efficient and safe.

### *Available Models:*

- CLARIPUR SG20 - 20g/h for pools up to 65m<sup>3</sup>
  - CLARIPUR SG35 - 35g/h for pools up to 115m<sup>3</sup>
- 8 hours - 100% generation

### *Advantages:*

- **Easy** configuration.
- **SELF-CLEANING** system for cleaning the cells avoiding calcium buildup.
- **TURBO** function for super chlorination.
- **Long useful life** of the titanium cells.
- **2"** connection.

# CHLORINE GENERATOR FOR SWIMMING POOLS

**CLARIPUR**  
SALT CHLORINE GENERATOR

With the use of CLARIPUR chlorine generator, you don't need to buy, store, transport or manipulate chlorine.

The continuous chlorination removes 99.9% of protozoa, fungi, bacteria, viruses and annoying chloramines during the chlorine production.

COST EFFECTIVE, EFFICIENT AND PRACTICAL.

Once the chlorine sterilizes the water from contaminants, it returns to its dissolved salt state and the cycle repeats.

*PRODUCTION OF CHLORINE FROM  
HIGH PURITY SALT.*
